

Two Sides of the Same Coin?

Lyrics

Is it easy to understand?

Free from the harsh taskmaster of time

An abrupt turn of events?

Reality, too difficult to define

Two sides of the same coin?

Solve equations in days that would take millions of years

Knowledge Racer has helped billions escape from poverty

Mankind can now achieve so much more

What is it really for?

Two sides of the same coin?

Working hard to finish the course

Just in case... there is another conundrum to explain

The puzzle still exists

A riddle for Babbage to vanquish?

You can ask the oracle, for it is a machine

Too calm for a turbulent nature

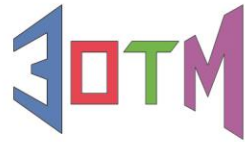

Two sides of the same coin?

Paradise not yet within our grasp

There are too many options--will you choose them all?

The ceiling is too tall for such a limited point of view

For a few, challenges still remain

Two sides of the same coin?

The curse of dullness

Enter the fray, for the contest is perfected

The gate is closed, and the guard has left his post

Look for clues along an invisible path

We can never go back...to a world before the...

Too far down the ladder, they have reached the valley

Two sides of the same coin?
