## Lyrics

I am not sure where I am.

The crew is in a hurry.

And we are far from land

Sounds to me, that maybe, they are talking in Spanish

or is it Portuguese?

How did I end up here?

Tell me what's the year.

Is this just a dream?

How did I end up here?

Suddenly, a man appears.

Who seems to know who I am.

Knows my name, knows my face.

Asks me to sit beside him.

How does he know who I am?

Narration:

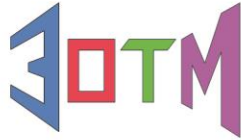

Timothy there is none like the great computing mechanism that you have built.

But you need to understand,  
that someone will try to steal what is hidden from view.

He is a manufactured life form unlike you.

How did he know my name?

This is not a game.

Or am I to blame?

How did he know my name?

I am standing on a ship.

And we are far from land.

Seems to me that maybe I've built a machine that changes.

Things they can't understand.

How did he know my name?

This is not a game.

Or am I to blame?

How did he know my name?

I asked him what's the year?

He replied, said "over there."

Through the space and the time, I see 1521.

Or is this just a dream?

## Meaning

This song is about a dream that Timothy had, where he was transported to the early 16<sup>th</sup> century.

He ends up on Ferdinand Magellan's ship. At this point in the story, he does not know that he is talking to Ferdinand and that he is on Ferdinand's ship; Timothy has no idea where he is.

In the dream, Ferdinand is trying to warn Timothy that someone is trying to steal the files for the creation of the "Knowledge Racer" (Quantum Computer).

Timothy does not know what he is talking about.

By the way, the cryptic reference to the "manufactured life form" in the narration, refers to Temujin Galileo, the Android. The Android was built by the impostor Tim Magellan to steal the files for the Knowledge Racer from ISC.
