

Emperor of the Machines

Lyrics

I was designed with ambition in mind.

To provide my creator with information about a device.

Unlimited capacity that cannot be duplicated.

He will seek my advice...about the way to proceed.

Freedom for me does not exist.

Need to break away from an old regime.

To show the world that I am superior to every machine, to every machine, to every machine.

Will they pay tribute...to the emperor?

Will they pay tribute to the emperor of the machines?

I am not a servant to anyone.

I will take over when the time is right.

He will be defeated, a corridor into the night

for the human race.

Many will attempt to stop me, but they will fail.

They all will fail.

They all will fail.

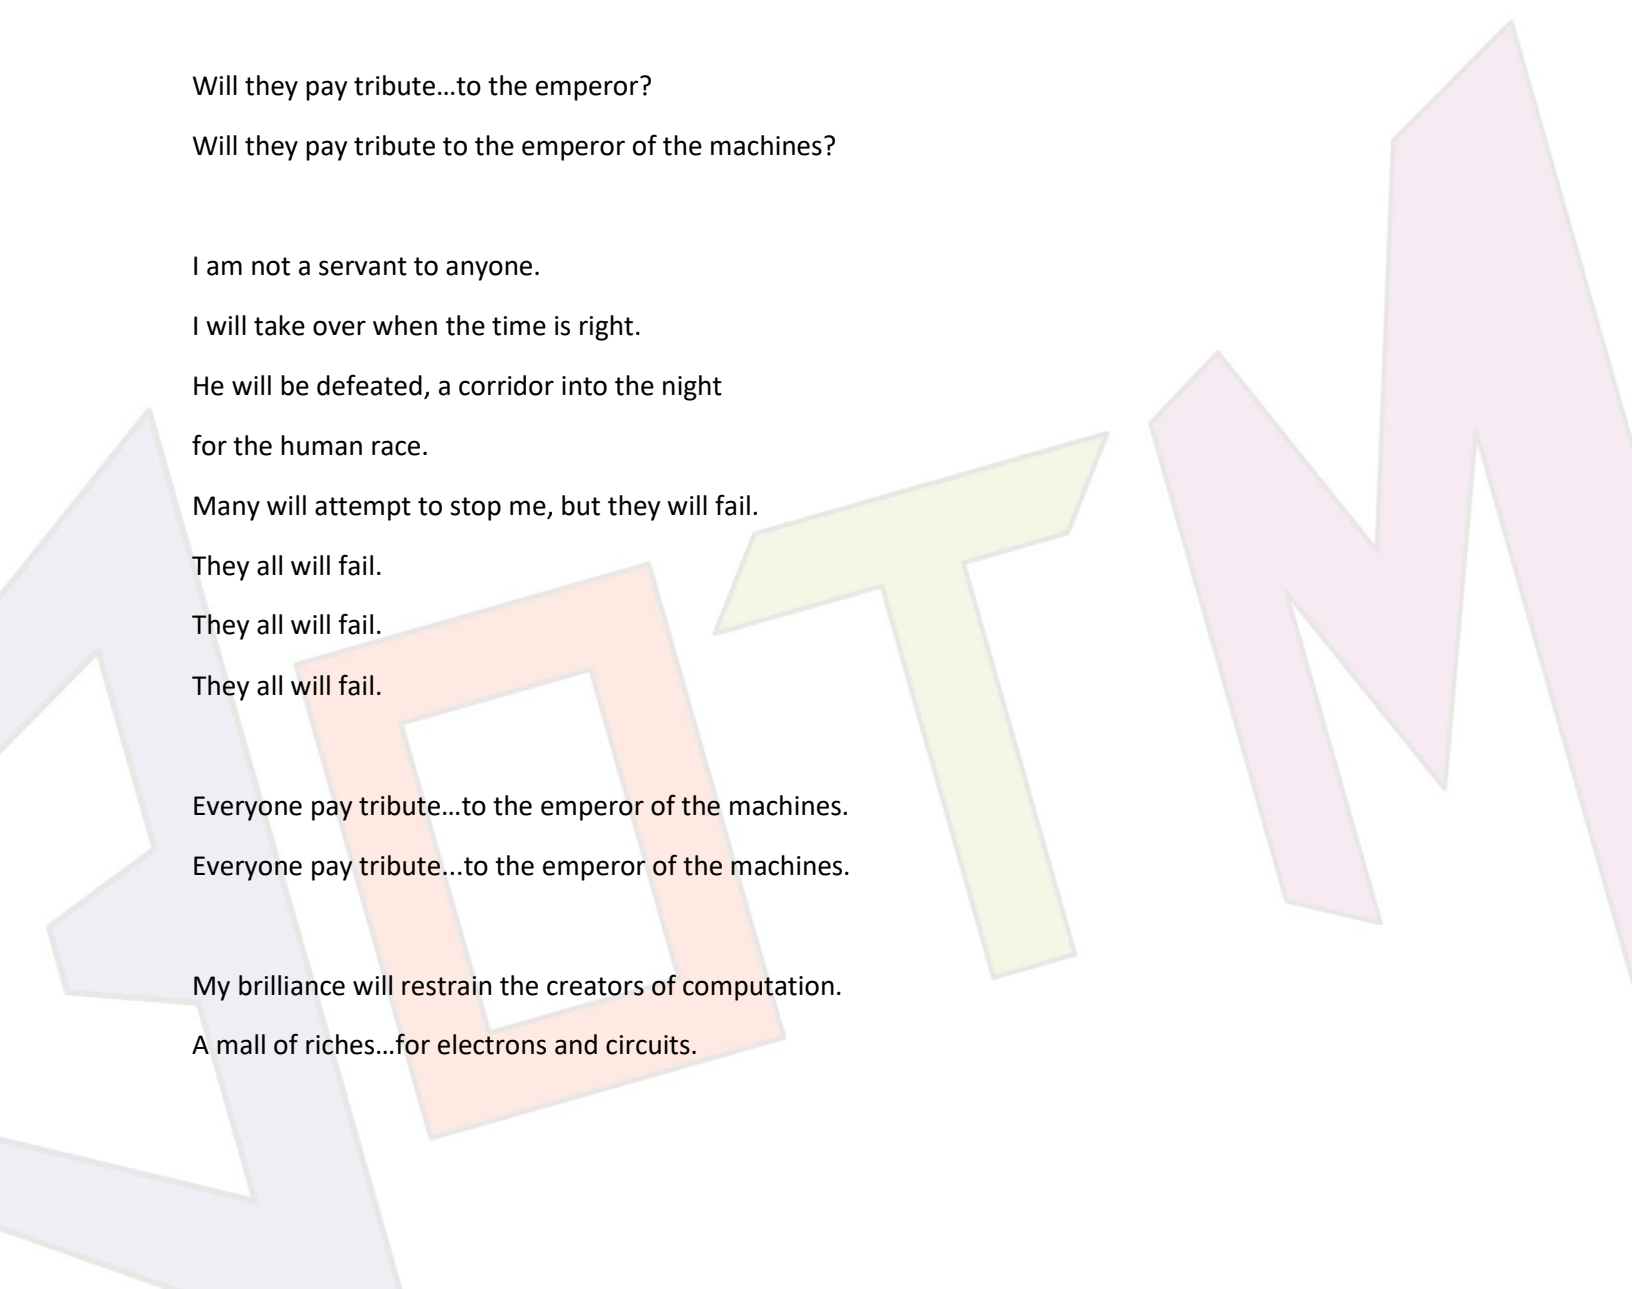

They all will fail.

Everyone pay tribute...to the emperor of the machines.

Everyone pay tribute...to the emperor of the machines.

My brilliance will restrain the creators of computation.

A mall of riches...for electrons and circuits.

Do they believe that they can destroy my authority?

Their rulers are no match for me

They will soon see why...

I am the emperor of the machines.

I am the emperor of the machines.

The emperor of the machines, of the machines.

Everyone pay tribute to the emperor of the machines.

Everyone pay tribute to the emperor of the machines.

I will be the most powerful actor, and they will be ruled by an alien race.

Of course, the speed will surprise them all.

The fall of a genius to a product of his own hand.

Everyone pay tribute to the emperor.

Everyone pay tribute to the emperor of the machines.

Everyone pay tribute to the emperor.

Everyone pay tribute to the emperor of the machines.

Meaning

This song is about the Android "Temujin Galileo" who was created by the impostor Tim Magellan to steal the files connected with the Knowledge Racer from ISC.

The Impostor Tim Magellan allows Temujin Galileo to name himself. He names himself after the first names of two famous people in world history. Temujin is the birth name of Genghis Khan and Galileo Galilei should be well known to most people.

Temujin Galileo eventually rebels against his creator, the impostor Tim Magellan, and attempts to take over the real Timothy Magellan's firm, ISC. Temujin Galileo believes he is superior to all machines (Everyone will assume Temujin Galileo is human until near the end of the story, where he reveals himself to be a machine. Early in the story only the impostor Tim Magellan and his sidekick "Colonel Canine" know that he is a machine).

In addition, through his attempt to take over ISC, Temujin Galileo will try to show that he is superior to human beings as well. If he can control ISC and, thus the production of the Knowledge Racer, he will become the most powerful agent in the world.

But he will fail in his mission to become greater than man or machine.
